

STADA KENYA | IMPACT STORIES

CHRISTINE AKELLO

“I’m Christine Akelo Omondi, I work at STADA as an office admin. I joined STADA in 2021. I’m among the beneficiaries in the teen mom program at STADA. This is after I heard about them through a village elder. I got pregnant at the age of, I nineteen, Life was hard for me, I was unable to join collage after my KCSE. This was when I decided to visit STADA. I volunteered as an office admin, which they later employed me permanently.

Right now

Since then, my life has been transformed, I’m able to cater for my needs and my son’s needs from the salary I get every month, all thanks to STADA KENYA. The help you’re giving to young mothers means a lot to the society.

To all the young mother out there don’t loose hope, be strong and remember life has to continue even if we undergo through hard moments in life.”
