

# STADA KENYA | IMPACT STORIES

## VIVIAN AWUOR

According to the county government of Kisumu, in 2020 Kisumu County recorded 17% of teenage pregnancies. “At STADA KENYA we empower women and young mothers, we ensure equality and justice. Being a mother at a young age is not a walk in the park, we are working tirelessly with the community to support young mothers in their education as well as to secure life changing opportunities that offer them financial freedom.”

“I am Vivian Awuor from Migingo. I am 20-years-old and I joined STADA in 2020 after I got pregnant in class eight, life became so unbearable that I could not afford to finish my primary school education. STADA came to my rescue and they took me back to school, I finished my KCPE certificate which saw me advancing to a vocational training in Kidi-Lwanda where I partook a tailoring course, STADA KENYA catered for it all.

Right now, I am employed at STADA KENYA and I can comfortably support my family and my child, I say thank you to STADA KENYA, to all young mothers out there, do not give up.
