

STADA KENYA | IMPACT STORIES

DOREEN AROKO

“My name is Doreen Aoko. I’m among the many that have benefited in the teen mum program. I got pregnant at the age of seventeen years. Life became hard for me considering the fact that I was pregnant at a young age and I was jobless.

I did not have anyone that could help me maver through motherhood. Life became so unbearable that I even thought of ending my life. This was when I decided to seek help at STADA KENYA. They surely came through. They paid my school fees in collage where I studied hair dressing. They gave me counseling which really helped me. I’m now happily self-employed. I now have a purpose and dream to achieve.

Thank you STADA KENYA for walking with me in my journey, to all the young mothers out there do not lose hope life must continue no matter what”.
